

Contact Center Agent Policy Guidelines

Document ID: CC-POL-001

Version: 1.0

Effective Date: January 1, 2026

Purpose

This policy establishes standards for all contact center employees regarding customer interactions, compliance, quality assurance, and operational performance.

Scope

This policy applies to all customer service representatives, supervisors, team leads, and contractors supporting customer interactions through voice, chat, email, and social media channels.

Customer Interaction Standards

Agents must:

- Greet customers professionally.
- Verify customer identity before discussing account information.
- Use approved scripts where required.
- Maintain a courteous and respectful tone.
- Avoid interrupting customers.
- Provide accurate information based on approved knowledge bases.

Agents must not:

- Make promises outside company policy.
- Share confidential customer information.
- Use offensive or discriminatory language.
- Disconnect calls without appropriate justification.

Authentication Requirements

Prior to discussing account details, agents must verify at least two of the following:

- Customer ID

- Date of birth
- Registered phone number
- Account number
- Security question response

Failure to verify identity requires the interaction to be terminated or redirected according to security procedures.

Call Recording

All customer interactions may be recorded for:

- Quality assurance
- Training
- Regulatory compliance
- Fraud prevention

Customers must be informed when legally required.

Escalation Procedures

Calls should be escalated when:

- Customer requests a supervisor.
- Regulatory complaints are raised.
- Security breaches are suspected.
- System access issues prevent resolution.

Performance Metrics

Agents are measured on:

- Customer Satisfaction (CSAT)
- First Contact Resolution (FCR)
- Average Handle Time (AHT)
- Schedule Adherence
- Quality Assurance Score

Data Privacy

Agents must comply with applicable privacy regulations including:

- GDPR

- CCPA
- Company Privacy Standards

Customer information may only be accessed for legitimate business purposes.

Policy Violations

Violations may result in:

- Coaching
- Written warning
- Suspension
- Termination
